Griffin Warns: Council's Anti-Amnesty Firewall May Not Hold

U.S. Border Security Council Executive Director Brice Griffin is warning the Council's supporters that pro-illegal amnesty forces in Washington are gaining momentum. Griffin says that without more grassroots pressure and support from across the nation, the "firewall" of opposition to Amnesty Plus (Senate bill S.9) may not hold.

"The White House and the Congressional Hispanic Caucus are getting ready to try to steam roll

this bill through Congress," Griffin warns. "From my vote tally and from the way the pro-illegal alien supporters are acting, I believe they are getting close to being able to pass S.9."

Recently the White House hosted a massive "Fiesta Latina" party on the White House lawn that was televised by the Spanish language television station Telemundo.

Bill to Make Puerto Rico 51st State Close to Passing House

An incredible 181 members of the House of Representatives have signed on as co-sponsors of a bill that will likely lead to statehood for Puerto Rico, and the U.S. Border Security Council is sounding the alarm.

"Proponents of Puerto Rico statehood only need 37 more Members of Congress to support

the 'Puerto Rican Democracy Act' (H.R. 2499) in order for it to pass," reports U.S. Border Security Council Executive Director Brice Griffin. "This is a terrible bill that was designed to make Puerto Rico the 51st state."

Pedro Pierluisi, Puerto Rico's representative in Congress poses with a smiling Barack Obama. Pierluisi's "Puerto Rican Democracy Act" very likely will lead to statehood for Puerto Rico. Currently the bill has 181 co-sponsors in the House of Representatives and has been reported out of committee.

Border Security News in Brief

Increasing Number of Chinese Caught Crossing Border Illegally

An increasing number of Chinese illegal immigrants are being caught crossing the nation's southern border. From October 2008 through August of 2009, Border Patrol Agents caught 261 Chinese nationals illegally entering the state of Arizona from Mexico.

Mexican Immigrants More Likely to Have Psychiatric Problems

The National Institutes of Health has decided to follow up on a 2007 Study conducted by University of California-Davis Researchers that concluded immigrants to the United States from Mexico were three times more likely to suffer from psychiatric disorders as Mexicans who did not choose to emigrate.

Congressman Blasts Obama for Health Policies Toward Immigrants

Representative Luis Gutierrez is criticizing the Obama Administration for backing changes to a proposed health reform law that will make it harder for illegals to buy health insurance in the United States. Gutierrez, one of Congress' most outspoken advocates for illegal immigrants, wants them to be able to receive subsidized health insurance from the federal government.

SNEAK OF THE MONTH: **Calif. State Senator Gilbert Cedillo**

California State Senator Gilbert Cedillo is this month's "Sneak" for proposing a controversial resolution calling for a complete moratorium on enforcing the nation's immigration laws.

The resolution was passed by the California state Senate and condemns the federal government for merely auditing employers' payroll records instead of conducting raids of workplaces.

Cedillo calls the audits

"electronic raids" that are costing illegal immigrants their jobs. He also says he is putting President Obama "on notice" that he must halt the entire E-Verify program as well.

When asked by the press about the over 10% of California's legal residents who are out of work, Cedillo declared, "We are not responding to that and it doesn't matter."

Amnesty (continued from page 1)

“Although this taxpayer-financed party wasn’t specifically billed as a kickoff effort in support of the new amnesty bill, it sure looked like it,” explains Griffin.

Griffin also points out that the White House and the Congressional Hispanic Caucus have been meeting regularly and that immigration “reform” is probably the very next item on the administration’s agenda after health care.

“The fight is now on,” explains Griffin. “I need all our supporters to send in their petitions, to call their Congressmen, and to make a financial contribution to our efforts right now,” she says.

According to Griffin, pro-illegal alien forces now have the votes in the Senate to pass S.9. “Democrats combined with a number of Republicans like John McCain and Lind-

thored the controversial measure and has succeeded in pushing his bill through the committee.

“Next step for this bill is the House floor,” says Griffin. “We have to act now to stop this hideous legislation.”

Under the bill, Puerto Ricans would have to cast ballots on two different referendum measures that are written by supporters of Puerto Rico statehood. “Basically this bill calls for rigged elections that favor activists who want Puerto Rico to be a state,” Griffin explains. “These people are going to great lengths to get two more left-wing ‘open borders’ Senators.”

The U.S. Border Security Council is leading the opposition to this

“Proponents of Puerto Rico statehood only need 37 more Members of Congress to support the ‘Puerto Rican Democracy Act’ in order for it to pass,” reports U.S. Border Security Council Executive Director Brice Griffin. “This is a terrible bill that was designed to make Puerto Rico the 51st state.”

Griffin is sending out an emergency plea to all U.S. Border Security Council supporter across the country asking for immediate grassroots and financial support. “The American people need to bombard Congress with petitions and phone calls. And they need to support the U.S. Border Security Council financially. In this battle we are being outspent probably one thousand-to-one. I need emergency money for ads and additional grassroots programs. The situation is getting desperate,” urges Griffin.

According to sources both on and off Capitol Hill, the administration would like to start pushing the Amnesty bill through Congress as early as this December while Americans are preoccupied with the holidays.

push back against this bill,” Griffin says. “However, we need to do much, much more. This bill already has a great deal of bipartisan support, and it will be very, very hard to stop it now without the help of the American people.”

Griffin reports that the news media and even many other pro-national security groups have been strangely silent on the issue of Puerto Rico statehood. “The American people don’t realize how close we are to having a Spanish-speaking 51st state shoved down our throats,” says Griffin. “Americans can not afford to make Puerto Rico a state and our efforts are aimed at making sure the American people and their elected representatives understand that fact.”

**From the
Executive
Director:**

Dear Friend,

Let me be blunt . . .

I need your help and I need it now.

The fight over Amnesty Plus is on and you and I need to fight back.

As the lead article in this month's newsletter reports, the Administration is gearing up to ram its amnesty bill through Congress and I am no longer sure I can stop them.

Frankly, I am being massively out-spent by the open borders lobby. I need your financial help.

However, I also need you to sign each and every anti-amnesty petition I send you, and to call your Congressmen right away.

If you have been waiting for the ideal time to get involved and to fight back against the illegal aliens and their allies in Congress, this is the time!

Please help. Nothing short of the fate of America is at stake!

Sincerely,

Brice Griffin
Executive Director

Council Vows to Keep Defending All Border Security Officers

As anti-border security activists ramp up their lobbying efforts the U.S. Border Security Council is pledging to defend border security officials from politically motivated attacks.

"There must be no more cases like that of Ramos and Compean," says Council Executive Director Brice Griffin, referring to the infamous case of two border patrol agents who were thrown into prison for defending themselves and apprehending a drug dealer.

As part of its efforts the Council will be rallying its supporters to lobby Congress to pass legislation

providing all the support America's border security officials need to do their jobs.

"If some crazed illegal alien-loving group wants to try to railroad one of our nation's brave border patrol officers again, the U.S. Border Security Council will be ready to defend them with everything we have," Griffin promises.

The Obama Justice Department is already "investigating" famed Arizona sheriff Joe Arpaio for being too aggressive in enforcing the nation's immigration laws.

Former Border Patrol Agent Jose Compean was railroaded by anti-border security activists.
