LeBlanc Says Obama's Amnesty "Will Not Stand"

Having run into insurmountable opposition to S.6, Amnesty Plus, ginned up by the U.S. Border Security Council, President Barack Obama has ordered the Justice Department to circumvent Congress and to implement a national illegal alien amnesty on its own.

Under the new edict, federal officials will halt deportations of large numbers of illegal aliens who the Administration classifies as "non-criminals." These individuals include students, children and long-time illegal residents who are

currently facing deportation.

"This is an illegal back door amnesty for criminal trespassers," says U.S. Border Security Council National Spokesman Steve LeBlanc. "The President has no authority to ignore laws he does not like. This policy will not stand. We are going to fight it with every weapon at our disposal."

The exact number of illegals who will benefit from this new policy is not clear but initial esti-

President Barack Obama has effectively granted amnesty to millions of illegal immigrants. His edict is unconstitutional and will destroy America.

Council Blasts Government Free Cell Phones to Illegals Program

The U.S. Border Security Council is promising to defund a federal welfare program that provides free cell phones for illegal immigrants.

The Federal Communications Commission's LifeLine Assistance and Link-Up programs began providing free landline phones for the poor in 1996. The program was expanded in 2008 to include cell phones.

Almost anyone who receives welfare benefits like food stamps or free or subsidized school lunches is eligible to receive a free phone and 250 minutes of talk time per month.

Since at least 33% of illegal immigrant households receive some type of welfare benefits, it stands to reason that many of these taxpayer funded phones are being used by individual in this country illegally.

"Outrageous is not the word for what is going on with this program," says U.S. Border Security Council National Spokesman Steve LeBlanc. "This is criminal. Americans are struggling in this terrible economy, but if you are and illegal immigrant, you get a free cell phone. We're going to stop this nonsense."

Border Security News in Brief

Obama's Illegal Alien Uncle Gets Arrested

An illegal immigrant from Kenya who is reportedly Barack Obama's uncle, was recently arrested for drunk driving in Framingham, Massachusetts.

Onyango Obama was arrested after police say he nearly ran his SUV into a police cruiser and later failed several sobriety tests. He will be represented in court by the same attorney who helped the President's illegal alien aunt receive asylum in America.

DHS: \$85 Million for Plane Tickets Back Home

The Department of Homeland Security has spent \$85 million dollars flying illegal immigrants caught along the Arizona border back to Mexico over the past eight years.

Deportees are escorted to a plane for a flight to Mexico City at Tucson International Airport. Pro-illegal alien groups say the cost is too high and want it stopped altogether.

Another Border Tunnel Unearthed

The Mexican army recently discovered an unfinished 980 foot long tunnel beneath the US border that was to be used to smuggle drugs and illegal immigrants.

Mexican General Alfonso Duarte said the entrance to the tunnel was inside a house in the Tijuana that was disguised in such a way as to make it to seemed to under construction.

The tunnel featured a lighting and ventilation system, officials said.

SNEAK OF THE MONTH: Five University of Georgia Professors

Five University of Georgia professors are this month's Sneaks of the month for hatching a scheme to help illegal immigrants in Georgia skirt that state's new anti-illegals law. Professors Pam Voekel, Reinaldo Roman Lorgia and Garcia Pena and two unnamed colleagues have opened "Freedom University" in order to educate illegal immigrants who are no longer allowed to attend Georgia's public Universities under a

new law passed by the state legislature.

The activist professors claim the new Georgia immigration law is unfair and that illegal alien children deserve to receive taxpayer subsidized college education.

The professors are organizing a network of their colleagues to teach college level-classes independent of the state university system.

mates put the number at 300,000 this year alone.

“There really is no limit on the number of illegals who will get amnesty now,” LeBlanc explains. “Under this new policy, the only people who really have to fear being deported are people who have committed additional crimes or members of gangs. If you sneak across the border just to get welfare benefits, you are going to be allowed to stay.”

Additionally, the Administration has also announced that many of the illegals who are currently in custody facing deportation not only will be allowed to remain in the

U.S., but they will be permitted to apply for work permits as well.

immigration authorities. Instead of deporting you, as long as you aren’t a convicted thief or murderer, you will get amnesty,” LeBlanc theorizes.

To combat this amnesty policy, the Council is going to lobby Congress to pass legislation that will force the Administration to enforce the laws and outlaw this new policy. “We are going to have to overwhelm Congress with petitions and phone calls,” LeBlanc warns. “Millions and millions of illegals will now come pouring across our southern border because Obama has promised that they will be allowed to stay. This could be an economic and humanitarian disaster of near Biblical proportions. We have to stop this craziness before it destroys America.”

Cell Phones (continued from page 1)

The phones are sometimes called “Obama phones” by the program’s supporters and detractors alike. However, the free cell phones were authorized by President G.W. Bush’s administration.

“It figures that the Administration that tried so hard to ram through Amnesty would be the one that started this freebie for the illegals,” LeBlanc says. “I’m sure the Obama Administration is absolutely thrilled to be able to hand out these phones while avoiding responsibility for starting the program.”

The federal government does not verify an applicant’s immigration status before approving them for a free phone. Therefore it is very easy for an illegal immigrant to take advantage it.

LeBlanc says that the Council is already preparing a grassroots lobbying program aimed at shutting this program down.

“We are going after both the federal government and the cell phone companies who are paid by the U.S. Treasury,” LeBlanc warns. “If we don’t shut this thing down now, I fear that the Administration will expand it to include free cable tv, internet access and even email. Whatever the illegals want, the illegals seem to get.”

LeBlanc says that he will enlist the help of the Council’s national network of activists to sign thou-

sands and thousands of petitions. “We need to make a lot of noise about this issue,” he says.

Supporters across the nation will most likely receive and urgent letter in the next few weeks. The letter will be accompanied by at least one petition and will outline how the recipient can work to get the free cell phone program defunded..

Dear Friend,

Call you elected representatives in Washington right now. Tell them to stop Barack Obama's amnesty of illegal aliens.

You can reach the Capitol Hill switchboard by calling 202-224-3121.

Because of this new illegal amnesty policy, millions of new illegal aliens will soon come pouring across our border. It will be a tidal wave bringing violence and poverty all across our great land.

No community in America will be immune. Our economy, our culture, our very way of life is threatened by Obama's arrogant misuse of his power.

Please call Congress now. Tell your representatives to stop Obama's illegal alien amnesty!

Congressmen Launch Reclaim American Jobs Caucus

The Reclaim American Jobs Caucus was recently launched by US. Representatives Lamar Smith, Gary Miller and Sue Myrick.

According to the group, the Reclaim American Jobs Caucus "will work to enforce our current immigration laws, increase worksite enforcement, incentivize employer use of the E-Verify system, and make sure that American citizens and legal immigrants are able to find the work they want - and deserve."

"It is about time that members of Congress got serious and started pushing back against the illegal alien lobby," says Council Executive Director Steve LeBlanc. "We wholeheartedly support them."

The caucus currently has forty-three members and is working to educate the American people by publishing the estimated number of illegal aliens residing in each state along with an "American Jobs Displacement Index."

U.S. Representative Sue Myrick has cofounded the American Jobs Caucus to fight against illegal aliens and educated the public about their economic cost.
